

Introduction

Grafilab is a revolutionary AI ecosystem that empowers anyone, from ordinary users to developers, to participate in and benefit from AI innovation. Through our CeDePIN Cloud ,Co-Builder and Ai App-store platform, users can easily deploy, train and monetize AI app/agents without needing deep technical expertise. At the heart of Grafilab is our AI Data Layer, which ensures secure data integrity, ownership, and transparency, creating a trusted environment for AI development and commercialization. Grafilab is breaking down the barriers to AI accessibility and driving the evolution toward AGI.
