

Roadmap

Q3 2024

- **Strategic Partnerships:** Signing of Gigabit MOU for long-term collaboration.
- **User Growth Initiatives:** Launch of Telegram Mini App onboarding campaign targeting 80,000 users, complemented by the Footprint program to onboard 110,000 users.
- **Incubation & Acceleration:** Inclusion in the prestigious DTC Incubation and Acceleration Programme to strengthen market readiness.

Q4 2024

- **GPU Contribution Alpha Launch:** Rollout of the alpha phase for GPU contribution to onboard early testers and refine the system.
- **Private Sale Round:** Onboarding for early investors and strategic partners for project scalability.
- **Public Token Sale Preparations:** Finalizing groundwork for the \$GRAFI token public sale launch.

Q1 2025

- **Core Product Development:** Beta launch of the GRAFI CeDePIN Cloud and Inference API.
- **AI Advancements:** Introduction of MoE LLM (Mixture of Experts Large Language Model) and Data Swarm for optimized AI processing and data integration.
- **Strategic Partnerships:** Collaborations with leading AI Agent Framework providers and AI Agent Launchpads to expand application usability.
- **Public Sale Round:** Public Sale and Token Generation Event (TGE) followed by prominent exchanges listing.

Q2 2025

- **GPU Network Expansion:** Scaling CePIN GPU resources and connecting them to long-term contractual demand for stability and scalability.
- **Grafi AI App Store Launch:** A subscription based marketplace for AI agents, applications, and tools.

- **AI Node Launch:** Official rollout of AI Nodes to support decentralized data validation, indexing, and publication.
- **Onboarding Open source community:** More open source framework, tools, plugins will be available on the Co-Builder console.

Q3 2025

- **LLM Fine Tuning:** To provide more powerful MoE LLM and others LLM, fine tuning using data swarm high quality labeled data.
- **Data Layer Rewarding:** Data is digital oil, we prioritise every data contributor with high quality input and deserve to be rewarded.
- **Ecosystem Incubation:** Growing our ecosystem with Grafilab incubation program, hosting hackathon & innovation bounty quest for developers society.
